

Meet our compounding pharmacists at ClearSpring Pharmacy

Rachel Burns, Pharm D.

After graduating from the University of Iowa College of Pharmacy in 2004, Rachel moved to Colorado and worked as a compounding and retail pharmacist in Boulder, CO. Rachel joined ClearSpring Pharmacy in 2009 and has found her place helping others solve difficult or unusual health care problems. Rachel is a certified HRT specialist through PCCA and also has extensive training in pain management and ENT health.

Sara Farrier

Sara is a wonderful and caring pharmacist. She will go the extra mile to make sure all patients get the care they deserve. After working at a big box pharmacy for 8 years, Sara moved to ClearSpring Pharmacy and found a home. Sara's areas of expertise include bioidentical hormone replacement therapy, pain care and ENT (though she is definitely not limited to those areas). She looks forward to meeting you soon.

Feel free to call or email Rachel and Sara any time.

ClearSpring Pharmacy is dedicated to the needs of providers and patients. Rachel and Sara, along with the pharmacy staff, are here to answer questions, address concerns and help in any way they can. Our main goal is to provide a quality product, excellent customer service and an overall great experience.
